

“Open Science – The Way Forward”

Movenpick Hotel du Lac, Tunis

19-20 July 2022

Introduction

Under the kind patronage of His Excellency Prof. Moncef Boukthir, Minister of Higher Education and scientific Research of Tunisia, the Arab States Research and Education Network (ASREN) and the Computing Center Al Khawarizmi (CCK) are organizing a conference on “**Open Science – The Way Forward**” to be held at the Movenpick du Lac hotel in Tunis, Tunisia during 19-20 July 2022. The conference will be preceded by a regional meeting dedicated to the Arab National Research and Education Networks (NRENs) to discuss and plan NRENs support to research and education communities in terms of providing the appropriate infrastructures and the necessary services to these communities with Open science and Open Access in mind as a priority.

Background and overview

As research and education became more demanding for resources, applications, massive volumes of data, high performance, grid computing and content, it has become a worldwide trend to establish dedicated networks for research and education away from the commercial Internet to satisfy the needs of research and education communities. National Research and Education Networks (NRENs) have been found to provide dedicated connectivity to universities, research centers, libraries, hospitals and any other organizations supporting or conducting these activities.

NRENs services are not limited to connectivity provision. NRENs are expected to provide a set of services that enable collaboration and encourage joint projects and help the research and education communities to access scientific data repositories and computing resources. Furthermore, NRENs are now taking a new role in supporting new global trends in Science Cooperation, Open Science, Science Dialogue, Engagement with user communities and more.

Open Science, Open Access and Open Data are now on the top of the agenda of each country and at the regional and international levels. UNESCO has recently announced its recommendations on Open Science. Europe has also adopted the European Open Science Cloud to support the R&E communities. More initiatives and activities are taking place around.

Al Khawarizmi Computing Center - CCK

Tunisia has been a pioneer in establishing CCK to host and run the Tunisian National University Network. Tunisian National Academic Network (in French Réseau National Universitaire, RNU for short) has been established and run by the CCK since 1997. CCK is also acting as an Internet service provider for the entire Tunisian academic community of nearly 400 000 users, 90% of whom are students and the rest are faculty members, full time researchers, and administrative staff. The RNU interconnects the networks of the various Tunisian universities, administrations, student's dorms, university restaurants, research centers and Technology Parks.

Arab States Research and Education Network - ASREN

The Arab States Research and Education Network (ASREN) was established in 2011 under the umbrella of the League of Arab States to support the developments in the Arab region through the provision of high-quality internet access, collaboration tools and platforms and infrastructure services to the research and education communities in the Arab region and to facilitate collaboration with other communities around the world.

ASREN is promoting Science Cooperation and Science Dialogue through Science Diplomacy activities, adopting Open Science based activities to facilitate science, research and education cooperation through robust infrastructures including connectivity, clouds and platforms and applications.

Main conference objectives

- NRENs to sustain and support research and education Infrastructures including connectivity, services, access to resources and enabling cooperation
- The role of AfricaConnect3 and LIBSENSE projects in supporting research and education and open science
- Open Science and open science platforms open access, open educational resources
- Clouds for research and education and Open Science Platforms including applications and infrastructures
- Science cooperation through sustainable infrastructures and open science environment
- Scientific, Research and educational communities and communities of practice

Preliminary program

Day 1 19 July 2022

09:00–10:30	<i>Opening Session</i>	Moderator Ms. Aida Snene, General secretary of CCK, Tunisia
		<ul style="list-style-type: none"> • Welcome speech of Prof. Saoussen Krichen, Director General of Al Khawarizmi Computing Center - CCK, Ministry of Higher Education and Scientific Research, Tunisia • Welcome speech of Mr. Yousef Torman, Managing Director, ASREN, Jordan • “Main Pillars of Open Science in Tunisia”, Mr. Chawki Chihi, Director General of Communication Technologies, Ministry of Communication Technologies, Tunisia • EU Delegation to Tunisia • “Recommendations of UNESCO for Open Science”, Prof. Samia Charfi Kaddour, Counselor of the President of the Government, Tunisia • Opening speech of His Excellency Prof. Moncef Boukthir, Minister of Higher Education and Scientific Research, Tunisia
10:30-11:00	<i>Coffee break</i>	
11:00-12:30	<i>Open Science I</i>	Moderator Mr. Yousef Torman, Managing Director, ASREN, Jordan
		<ul style="list-style-type: none"> • “Strategic Vision of Open Science and Metaverse for Education”, Prof. Mohamed Elouedi, Institut Supérieur de Gestion, University of Tunis, Tunisia • “ASREN Strategy on Open Science”, Raed Al-Zoubi, Director of the Centennial Library, Jordan University of Science and Technology, Jordan • Abdullahi Bihi Hussein, CEO, SomaliREN, Somalia • Hichame Boutarcheh, IMIST, Morocco

12:30-14:00	Lunch break	
14:00-15:30	Open Science II	<p>Moderator Mr. Raed Al-Zoubi, Director of the Centennial Library, JUST, Jordan</p> <ul style="list-style-type: none"> Nazar M. Hassan, <i>UNESCO Senior STI Regional Advisor for the Arab States, UNESCO, Egypt</i> Roberto Barbera, Professor, University of Catania, Italy Lautaro Julian Matas, Executive and Technical Director, La Referencia, Spain Omo Oaiya, Chief Strategy Officer, West and Central African Research and Education Network (WACREN), Ghana Nabil Ksibi, Engagement Lead, ORCID, South Africa
15:30-16:00	Coffee break	

Day 2 20 July 2022

09:00-10:00	Advances in Artificial Intelligence	<p>Moderator Prof. Narjes Bellamine, Director of the Ecole Nationale des Sciences d'Ingénieurs (ENSI), University of Manouba, Tunisia</p> <ul style="list-style-type: none"> "Datascience education in MENA region", Elyes Manai, Alumni from ISAMM and ESEN Expert in artificial intelligence Ahmed Dardouri, Robotic innovation with artificial intelligence, Engineering student in computer science, ENSI, University of Manouba, Tunisia Raoua Trimech and Hadil Helali, Engineering students in computer science, Soundefy : Translation of sign language into text and speech, INSAT, University of Carthage, Tunisia
10:0-11:30	NRENs, Clouds and Infrastructures	<p>Moderator Dr. Youssef Ben Halima, Counselor of the Minister of Higher Education and Scientific Research, Tunisia</p> <ul style="list-style-type: none"> "National Strategy for The Cloud : Legislatives and Services", Dr. Wala Turki, counselor of the Minister of Communication Technologies of Tunisia "Towards Arab Open Science Cloud", Yousef Torman, Managing Director, ASREN, Jordan "Networks and security", Prof. Slim Rkhis, SupCom, University of Carthage and Ministry of Communication Technologies, Tunisia "ASREN Clouds Services", Eriko Porto, IT Consultant, ASREN, Brazil "CCK-RNU Infrastructures", Abdelhakim Chattaoui, CCK, Tunisia
11:30-12:00	Coffee break	
12:00-13:00	Science Cooperation	<p>Moderator Mrs. Besma Belaid, General secretary of ENIT, University of Tunis El Manar</p> <ul style="list-style-type: none"> "ASREN's Strategy on Science Cooperation", Yousef Torman, Managing Director, ASREN, Jordan Salman Matalgah, Team Leader, Scientific Computing & Systems Com, SESAME, Jordan Mustafa Jarrar, Professor of Artificial Intelligence, Birzeit University, Palestine Islam Abou El-Magd, Vice-President, the National Authority for Remote Sensing and Space Sciences, Egypt Hamdi Kacem, African Union, Ethiopia
13:00-13:30	Closing Session	<ul style="list-style-type: none"> Prof. Saoussen Krichen, Director General of CCK, MESRS, Tunisia Mr. Yousef Torman, Managing Director, ASREN, Jordan
13:30-15:00	Lunch Break
