Sadek BOUROUBI has been a Professor of Mathematics at the University of Science and Technology Houari Boumediene (USTHB) since 1999 and serves as the Director of the Laboratory of Fundamental Computer Science, Operations Research, Combinatorics, and Econometrics (L'IFORCE). Currently, he teaches mathematical analysis, arithmetic, combinatorics, and cryptography at the undergraduate and graduate levels. He has authored four mathematics books aimed at students in both undergraduate and graduate programs across various disciplines. Additionally, he has contributed to numerous international scientific and professional articles in the fields of combinatorics, cryptography, number theory, and combinatorial optimization.
